Overview

Project Name	Data Analytics Project
Project Link	https://drive.google.com/drive/folders/13ThJgJiJUTT6905mW-UI-JMQOjrsPkU?usp=sharing
Project Owner	Utsav Raj
Background	I have been working on the important topics of Data Analytics along with the concepts of the statistics. Also, I did many of the analysis like Exploratory Data Analysis, Funnel Analysis, Break- even Analysis, etc. Ensuring visualization of the data to be attractive and understandable to the user. I am very comfortable in Python Programming with my hands- on skills.
Objectives	• To learn about the different concepts of Data Analytics • To make sure that the visualization is clear and understandable • To work closely with the business problems and to solve them
Tools Used	Google Sheets, Google Colab, PowerBI, Tableau.
